Dear Bernie,

I am generally aware of Salandria's writing, but the only one of his pieces I have seen is on the autopsy. I would like very much to at least see those you have. I haven't been able to afford a subscription to The Minority of One, Liberation, Ramparts, etc., or I'd have subscribed to these smaller journals which provide the only outlet for such writing. He is or was the or a Civil Liberties Union lawyer in Philadelphia. He is related to (I believe the father-in-law of) one Harold Feldman (who ^{my} brother-in-law knows) who has also been writing on this subject. I have seen some of his also. He has done some good work, but has attempted to disprove the Commission by the use of its own invalid methods, one of which I termed the voting-witness method, where truth and fact are decided on the basis of the number of witnesses voting for any given theory. On this basis Feldman concludes the shots came from the west of the building, the knoll.

I'd very much appreciate it if you could keep for me what you come across, and I will return what you want returned. The New Leader did not answer my request for some of their stuff, but I suppose eventually, when I have some dough, I can get these other things. But I would like to read them now, to keep current.

There is a little new. When we have a chance to talk I'll give you the details. But as of yesterday one of the smaller commercial publishers put in writing his earlier verbal agreement to print and push the book if he had a sales assurance. I have asked him to tell me what this means in copies and dollars, and then I'll start asking for more specific offers than a few friends have made. It is my idea that it take the form of a guarantee, that is, if it takes him 2763 books to break even and each one costs him \$1.00 to print, that I in effect post a bond that there is up to \$2763 on deposit to cover any losses.

Perhaps some evening you'll be free, for there are a number of things I'd like to tell you, about the book and the sequel, where my researches become increasingly fruitful, incredible and incontrovertible. It is even more shocking than "White-wash", and I am not at all certain it is not a real sequel, not just an intellectual one. No doubt, when I'm done, I'll face the same problem, only more so.

4 days!
If I am not in town earlier, which, with the newfound computerized efficiency of the post office (which delivers only my mail from the Defense Department promptly. From New York, two weeks!) this letter will not reach you before I do, do not get up when I stop off Saturday morning unless it is your getting-up time for Saturdays. We have a bas mitzvah at a schule in Montgomery County but on Connecticut Ave and I'll be stopping off for the needles.

Tried to call Donnie yesterday but no answer in her office. Is she okay?
